Introduction

What is Oxford Word Skills?

Oxford Word Skills is a series of three books for students to learn, practise, and revise new vocabulary.

Basic:	elementary and pre-intermediate (CEF levels A1 and A2)
Intermediate:	intermediate and upper-intermediate (CEF levels B1 and B2)
Advanced:	advanced (CEF levels C1 and C2)

There are over 2,000 new words or phrases in each level, and all of the material can be used in the classroom or for self-study.

How are the books organized?

Each book contains 80 units of vocabulary presentation and practice. Units are between one and three pages long, depending on the topic. New vocabulary is presented in manageable quantities for learners, with practice exercises following immediately. The units are grouped together thematically in modules of four to nine units. At the end of each module there are further practice exercises in the review units, so that learners can revise and test themselves on the vocabulary learned.

At the back of each book you will find:

- vocabulary building tables
- an answer key for all the exercises
- a list of all the vocabulary taught with a phonemic pronunciation guide and a unit reference to where the item appears.

There is a CD-ROM at each level with oral pronunciation models for all the vocabulary taught, and further practice exercises, including listening activities.

What vocabulary is included?

At Intermediate level, the vocabulary includes:

- a wide range of common topics, e.g. money, health issues, relationships
- words and phrases needed in social interaction, e.g. giving opinions, making arrangements to meet
- areas of lexical grammar, e.g. prefixes and suffixes, link words.

There is an emphasis on high-frequency vocabulary in everyday spoken English, but also vocabulary from different types of written text, e.g. job advertisements, magazine articles, web pages, and warning signs. At Advanced level, learners encounter more figurative meanings of vocabulary items, more idiomatic language, and a wide range of collocations.

The series includes almost all of the words in the Oxford 3000™, which lists the 3,000 words teachers and students should prioritize in their teaching and learning. The list is based on frequency and usefulness to learners, and was developed by Oxford University Press using corpus evidence and information supplied by a panel of over 70 experts in the fields of teaching and language study. In addition, we have included a wide range of high frequency phrases, e.g. *don't bother*, *I haven't a clue*, as well as items which are extremely useful in a particular context, e.g. *a filling* at the dentist's.

www.zandienglish.ir

We have taken great care to ensure that learners will be able to understand the meaning of all the new words and phrases as used in the particular contexts by supplying a clear illustration, a glossary definition, or an example of each word or phrase. Learners should be aware that many English words have more than one meaning. They should also be aware that nouns may be countable in some senses and uncountable in others. They should refer to an appropriate learner's dictionary for information on other meanings and structures and on countability. (See 'How to learn new words' in the Starter unit for advice.)

How can teachers use the material in the classroom?

New vocabulary is presented through different types of text, including dialogues, tables, and visuals. The meaning of new vocabulary is explained in an accompanying glossary unless it is illustrated in visuals or diagrams. Particularly important items are highlighted by means of 'spotlight' boxes.

Here is a procedure you could follow:

- Students study the presentation for 5–10 minutes (longer if necessary).
- You answer any queries the students may have about the items, and provide a pronunciation model of the items for your students to repeat.
- Students do the first exercise, which they can check for themselves using the answer key, or you can go over the answers with the whole class.
- When you are satisfied, you can ask students to go on to further exercises, while you monitor them as they work, and assist where necessary.
- When they have completed the written exercises, students can often test themselves on the new vocabulary using the cover card enclosed with the book. The material has been designed so that students can cover the new items while they look at the visuals, glossaries, or tables and test themselves. This is a simple, quick, and easy way for learners to test themselves over and over again, so there is no pressure on you to keep searching for different exercises.
- After a period of time has elapsed, perhaps a couple of days or a week, you can use the review exercises for further consolidation and testing.
- You will often notice the headings 'About you' or 'About your country'. These indicate personalized exercises which give learners an opportunity to use the new vocabulary within the context of their own lives. Students can write answers to these, but they make ideal pair work activities for learners to practise their spoken English while using the new vocabulary. If you use these as speaking activities, students could then write their answers (or their partner's answers) as follow-up. In the answer key, possible answers for these activities are provided by proficient non-native speakers from different parts of the world.

How can students use the material on their own?

The material has been designed so that it can be used effectively both in the classroom or by learners working alone. If working alone, learners should look at the Starter unit first. For self-study, we recommend that learners use the book alongside the CD-ROM, as it gives them a pronunciation model for every item of vocabulary, as well as further practice exercises. They can check their own answers and use the cover card to test themselves. One advantage of self-study learning is that students can select the topics that interest them, or the topics where they most need to expand their knowledge.

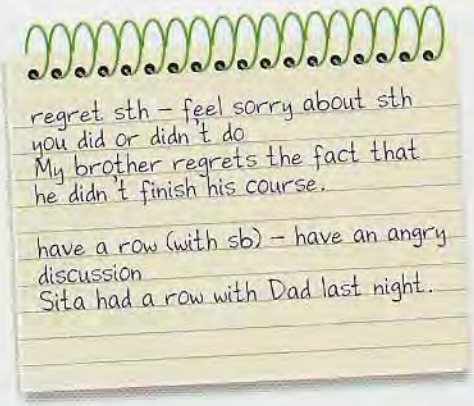
B How to learn new words

- Repeat the words and phrases two or three times to help you remember them.



- Write down new words in a notebook, with the meaning in English or your own language, or draw a picture.

- Write down any other important information about a word or phrase, e.g. words that often go together (*a serious relationship*) or constructions with verbs (*regret the fact that*). Write your own example sentences.

John doesn't get on with Dan, and now **realizes** they **have nothing in common**, while Pete **regrets the fact that** he **split up with** Amy, the girl he used to **go out with**. Now Amy is **in a serious relationship** with Keith (who didn't go to university), and Keith doesn't like Amy's old friends. This creates tension in the group, and soon there's a big **row**. Amy **falls out** with Pete, and Dan and John stop speaking to each other. And that's just the beginning ...

- Use a pencil for the exercises. Check your answers, then rub them out and do them again a week later.

- You can do the exercises in the review units, or the CD-ROM exercises, after each unit. Or do them a month later to test yourself, perhaps after you've studied all the units in that module (e.g. 'The world around us').

- Look at the vocabulary building tables at the back of the book (page 202).

- Go to the website (www.oup.com/elt/wordskills) for more useful materials and more practice.

Buy a good dictionary for your level. The *Oxford Wordpower Dictionary* (Oxford University Press) is very good for intermediate learners.

A Reading

Tips for reading

When you're reading in a **foreign** language, you should try to get the **gist** of the **text**. You will meet vocabulary you don't **recognize**, but you can often **go through** the text again. If so, try this:

- **Identify** the new words and phrases which seem to be important. Try to **guess** the meaning from the **context**, and/or use a dictionary.
- **Keep a record of** the words in a notebook, and, if possible, **make a note of** any special information. For example, is the word **formal** or **informal**? Is it used in a particular kind of **construction**, e.g. a verb that is often followed by a preposition?
- Write a **translation** if you think it helps; sometimes it isn't necessary.

spotlight *formal*

We use **formal** language to appear serious or official, or sometimes when we don't know people well. OPP **informal**. **formality** N. OPP **informality**.

B Fashion

Three golden rules for fashion

Fashion expert Alyson Walsh says that every **stylish** woman should have a 'capsule wardrobe' – a timeless collection of clothes for every occasion. This includes: a little black dress, the perfect jeans, leather handbag, a fine wool jumper, white shirt, knee-length skirt, etc. Being stylish is about what **suits** you and your **figure**. Here are three golden rules:

- Spend as much as possible on the basics (your capsule wardrobe) and don't worry too much about **fashionable** clothes – you probably won't wear them after one season.
- Choose **neutral** colours: black, cream, white, and dark blue. Neutrals look **elegant**, and are **versatile** and easy to **match**. Just think of Armani fashions, year after year.
- A simple **outfit** can be **transformed** with the **latest** fashion **accessory**, e.g. a belt.

Glossary

stylish	attractive and fashionable. **style** N.
suit	If something **suits** you, it looks good on you.
figure	the shape of the body, especially that of a woman.

elegant	attractive and well designed.
versatile	having many different uses.
match	look good with something else. **matching** ADJ.
outfit	a set of clothes that you wear together.
transform sth	change sth completely, usually in a positive way.
latest	new or very recent.
accessory	sth you wear or carry that goes with your clothes, e.g. a bag.

7 Circle the correct answer.

▶ It's a very (versatile) fashionable jacket – I can wear it on different occasions.
1 You should buy that blouse; it suits/matches your skirt.
2 She wore a very unfashionable/stylish jacket – it looked awful.
3 I need to get a new figure/outfit for my brother's wedding.
4 This coat is the latest/neutral fashion, but I don't particularly like the style/figure.
5 I think that dress really matches/suits you.
6 My mother's got a versatile/very good figure.
7 You can make a simple dress look great with the right outfits/accessories.
8 I always wear neutral/bright colours, but they can be a bit boring.

8 Complete the sentences.

▶ She can wear tight jeans because she has such a good figure .
1 I bought some pink shoes and a _____ handbag; they look great together.
2 I'd love to be like Mary; she looks so _____ whatever she wears.

A Formal and informal English

Most words and expressions are **neutral**, and can be used in most situations. Informal language is very common in spoken English, especially in conversation. Certain types of language are often informal:

- many phrasal verbs, e.g. ***turn sb/sth down***
- uses of **get**, e.g. *Could you **get** me a pen?*
- many **idioms**, e.g. ***keep an eye on sth***, ***out of the blue***
- many examples of **vague** language, e.g. *thing(s)*, ***stuff***, ***sort of***.
